**ADVERTISEMENT FOR EMPLOYMENT  
FULL TIME GRADUATE TRANSPORTATION ENGINEER**

Abley Transportation Consultants is a leading consultancy providing strategic transportation advice to central government, regional and local authorities and private developers as well as non profit groups. To learn more about the specific work we undertake visit [www.abley.com](http://www.abley.com).

Abley Transportation Consultants is located close to central Christchurch. Christchurch is based in Canterbury which is the gateway to the South Island of New Zealand. We are located within half an hour drive of the beach and hills and only an hour from the best snow skiing. If you enjoy the great outdoors, walking, sailing, cycling, mountain biking, water skiing or snow skiing plus a whole lot more, Christchurch and New Zealand offers plenty of excitement.

Recently Christchurch suffered a large earthquake and the recovery phase of the earthquake is increasing public and private development. This increase in work along with an expanding list of high profile national clients is necessitating that our firm increase resources and hence the opportunity for this roles.

The rebuild of a city is a unique opportunity for you to help transform 'rubble' to 'resounding'. Be part of the solution.

We are seeking an energetic Graduate Transportation Engineer to provide cutting edge thinking and analysis for the various transportation projects that we are undertaking.

We are looking for an undergraduate or post graduate engineering student in their final year of study. This person will be introduced to and build on the cutting edge thinking and analysis we provide for a wide range of clients. The role is an ideal opportunity for a student with high quality grades and a can do attitude to join a team that supports each other in a nurturing and progressive environment.

The role also includes liaising with other consultants, providing robust analysis and design with a focus on sustainable transport solutions and the opportunity to develop through structured mentoring. Ultimately you will be expected to become a Chartered Professional Engineer.

To be successful in this role you will have:

- A very good academic record in a range of papers some of which should be transportation related.
- A strong interest in transportation and providing for better quality community outcomes.
- Ideally some experience working in a consulting office.
- A personality that is 'can do' and orientated around quality outputs wherever possible.

Applicants will have a proven track record studying successfully and a personality that is a good 'fit' with our office environment.

You will report to the Managing Director and be supported by the other team members and assisted by the Senior and Principal Transportation professionals.

Abley Transportation Consultants is an IPENZ Professional Development Partner (PDP). We work in a close knit and fun team and support each other to achieve our clients' outcomes.

*"I finished my Bachelor of Engineering (Honours) (Civil) in 2009 at Canterbury and took the summer off to travel before starting work at Abley Transportation Consultants... Working for a small firm like Abley has made this really easy as I have direct access to the most experienced people in the company who are always willing to answer my questions. Abley also gives all technical employees the opportunity to attend at least one conference each year. I have been to two IPENZ transportation group conferences... Abley is a great place to work – it has provided me with lots of opportunity for ongoing learning"*
