

Road trauma reduction in NZ

Support for your efforts from ACRS

The Australasian College of Road Safety (ACRS) invites you to join ACRS CEO Claire Howe & colleagues to a free seminar about some exciting upcoming opportunities for Road Safety in NZ.

NZ had the worst annual road toll recorded since 2009, with nearly 400 lives being lost during 2018. Claire will discuss opportunities the College is keen to share with all those working to reduce trauma in NZ. The aim is to support all stakeholders to maximise the collaborative impact we can all make on road trauma reductions.

Opportunities discussed will include the replication of some successful ACRS programs in other jurisdictions, including the potential to expand the NZ Chapter of the College. Also, hear about the [Australasian Road Safety Conference](#) series, and plans to bring the event to NZ in the near future.

When: 10.00am – 11.30am Friday 24 May 2019

Where: Wellington Room, InterContinental,
2 Grey St, Wellington

RSVP Essential – [Register here](#)
